## PREFACE

THE reasons for publishing this biographical directory, State reference list, and other information concerning Kappa Alphas, as herewith presented, include three: First, the increased interest in the Kappa Alpha Order in Richmond and vicinity is demanding that each Kappa Alpha have a ready reference list of all Kappa Alphas in the city and vicinity as to "who they are and where they are"; Second, the forthcoming Semi-Centennial Celebration of Kappa Alpha, which is to be held in Richmond on December 28th, 29th and 30th, 1915, makes this a most appropriate time to let Kappa Alphas throughout the Order know about the individuals of the Chapter which is to act as host for this Celebration; Third, the information herein contained is believed to be of such a nature that the publication of same will prove of great service to all Active Chapters, especially those of Virginia, and to all individuals in whose hands it may fall.

Pleasant and numerous labors have kept company with the compiler during the collection of this data, and if mistakes are found, it is hoped that they will be charged to the pleasant interview, and that the error will be called to the attention of the compiler at once, in order that a correction can be made in the card-index record and thereby insure correctness in a similar publication which it is hoped will be forthcoming in 1920.

It is with a sense of great gratitude that the compiler acknowledges material aid from Brothers C. M. Chichester and Robert E. Scales and the many favors and courtesies extended by other Kappa Alphas and, it is sincerely hoped that this publication will be of great service to the Order as a whole and to each individual composing the same.

# State Kappa Alpha Reference List

## FOREWORD

The Kappa Alphas whose names are included in this list have been selected after careful search for members who are permanently located and who are willing to answer communications directed to them by Active Chapters and individuals of the Order.

Where no asterisk (\*) appears before the name, the member is known to be so located, and in most instances has expressed willingness to answer communications.

Where the name is preceded by an asterisk (\*), the member has been written to and the letter has not been returned, thus indicating that it was received.

It is suggested that requests for information be made as far ahead of the need for the same as possible, and where more than one name is listed in a town that it be addressed to all names listed.

# “PRINCINE”

## PURE PHOSPHATE BAKING POWDER

is a new discovery in the baking line. It requires heat to develop its full leavening strength. Hence it does its best work in the oven instead of wasting its strength in the mixing pan. :-: :-: :-:

“PRINCINE” is endorsed by such Pure Food Experts as Mr. McCann, Prof. Allyn and Dr. Wiley. If your grocer hasn’t “PRINCINE” in stock, tell him to get it for you. Send me his name and address and I will send you, free, a sample cup for testing; or, send 15 cents for a half-pound cup; 30 cents for a one-pound cup. :-: :-: :-: :-:
